Target Audience

For filmmakers or lighting technicians who want to use select Aputure fixtures such as the INFINIBARs, MT Pro, and MC Pro with DMX, this USB-C to DMX Adapter is a must-have in their tool kits. This simple adapter unlocks an entire world of DMX control for Aputure fixtures with USB-C control capabilities while also charging the fixture. With this adapter, these already powerful fixture options will become even more potent for DMX users and technicians.

Product Description

The Aputure Active USB Type-C to 5-Pin DMX In & Out Adapter Kit is a DMX adapter package that allows users to connect Aputure fixtures in series to a DMX network. Coming with the USB-C to DMX Adapter itself along with three mounting accessories, this kit will allow users to secure this adapter onto the fixture itself or to a variety of mounting points such as a Lightning Clamp. Compatible fixtures include the INFINIBARs, MT Pro, and MC Pro. Featuring a built in DMX/RDM chip, this adapter ensures stable DMX/RDM wired control of fixtures. In addition to offering wired DMX control, this adapter charges lights over USB-C while the light is wired into a DMX network.
